

Bulletin

All pilots and judges

In light of the recent updates regarding the Covid-19 situation, we are reluctant to say that the Nordic Championship F3A 2021 is cancelled.

The background for this decision is the continuous uncertainty regarding infection control, testing, quarantine and gathering of participants across countries.

The Norwegian National institute of public health (FHI) posted an update in the general recommendation regarding travelling 01.06.2021;

«Anyone travelling to Norway from countries with sufficient spread of infection (red coded – see attached picture) shall be in 10 days quarantine upon arrival.»

<https://www.fhi.no/nettpub/coronavirus/fakta/reiserad-knyttet-til-nytt-koronavirus-coronavirus/>

We cannot impose this quarantine on the competitors, and hence see no other alternative than to cancel the event.

Our primary goal is to ensure the health and safety of all participants and given the current situation we are unfortunately not able to guarantee this.

We hope for an understanding regarding the decision and look forward to seeing you all again when the pandemic is under control.

Happy landings – and stay healthy.

Best regards,
Audun Thinn
Contest director
Nordic Championship F3A 2021

Map from (FHI) of Norway indicating countries covered by the quarantine restrictions when travelling to Norway.
All red zones indicates 10 days quarantine upon arrival.
